Alexis Charles Henri Clrel, Viscount de Tocqueville was a French diplomat, political scientist and historian. He was best known for his works Democracy in America and The Old Regime and the Revolution. In both, he analyzed the improved living standards and social conditions of individuals as well as their relationship to the market and state in Western societies. Democracy in America was published after Tocqueville's travels in the United States and is today considered an early work of

The book proposes a new interpretation of Alexis de Tocqueville that views him first and foremost as a social scientist rather than a political theorist. Consistently going beyond exegetical commentary, Elster argues that Tocqueville is eminently worth reading today for his substantive and methodological insights.
