How can a transport model be integrated to the strategic ...

BKK Centre for Budapest Transport is the fully integrated urban transport managing authority of the Hungarian Capital. BKK is an entity between the local government (municipality) and transport providers and operators. Up to now, feasibility studies with transport models in Budapest were made only by private companies, therefore, to build up this competence at BKK, an integrated multimodal

An Integrated Model of Transport and Urban ... - SpringerLink

Abstract. By the year 2000, more than half of the world's population will live in cities. This means that not only an extensive exchange of population, goods and information in a globalised world can be expected but also that the transport of goods, population and information must be effectively managed.

Towards the Next Generation of Integrated Urban Models

What is an integrated model? An integrated urban model is intended to represent the spatial evolution of a given study region system state over time as a function
