Architectural Design CAD Tools, Architectural Design Software

ARCHICAD 22 Focused on improving the architectural design and documentation workflow for building fa ades with significant improvements to its construction modeling, information management and 2D performance. [Architectural Drawing | Architectural Design Software ...](#)

An architectural drawing is a technical drawing of a building (or building project). Architectural drawings are used by architects for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to enable construction by a building contractor, and to make a record of a building that already exists.

ARCHITECTURAL AND TECHNICAL DRAWINGS published architectural and technical drawings, either conceptual drawings (e.g., sketches), renderings, working drawings, or detail drawings, which constitute a fonds or a part thereof as instructed in LOAI.
