Banking/Trading - Operations Management: Gerrit Jan van ...

Banking/ Trading - Operations Management focuses on the particular challenges and new trends the operations manager has to address, which involves a balancing act between cost optimization and growing business requirements. Banking operations have been developed from data-entry and mass labour-intensive processes to highly automated process-controlled environments. This work comprises a mixture of practical and academic elements; it is designed to contribute to better functioning operations.

Banking/Trading - Operations Management (Finance and ...

Books about banking operations are difficult to find, and working as an IT consultant in the banking industry, I was looking for a book that could comprehensively inform the reader about the backroom operations of large multinational banks. From my experience, this is a rather complex field.
