Chernobyl What Have We Learned? | SpringerLink
Twenty million people have been exposed to Chernobyl radionuclides through the Dnieper River aquatic pathways. This book presents a 20-year historical overview and comprehensive study results of the aquatic environment affected by the 1986 Chernobyl nuclear accident. During this time, many water quality management practices and countermeasures were enacted. The book presents in-depth analyses of these water remediation actions, using current science and mathematical modeling, and discusses

What We Learned From Chernobyl About How Radiation Affects Our Bodies May 3, 2016 10:00 AM By Ausrele Kesminiene A doll and shoes lay on a bench in a nursery school of the "ghost town" of Pripyat near the Chernobyl Nuclear Power Plant on April 22, 2016.

Lessons of Chernobyl disaster, 30 years on - Phys.org
Did we learn lessons from Chernobyl? Yes, some of us. The others are too easily manipulated emotionally, like they were with "WMD!". Or poisoned by political prejudice. Yes, some of us.

Ten Years after Chernobyl: What Have We Learned?
Chernobyl-style reactors in Russia and the newly independent states could have been replaced with standard light water nuclear reactors.⁷ And with a little more effort, we could have turned out, via factory production, some of the new, next generation modular reactor designs, including a next-generation Russian design. Such a program might cost, conservatively estimated, \$2 billion per new
