The 1990s have witnessed the ascendance of a new orthodoxy which asserts that democracy and development are mutually reinforcing. However, many new democracies are illiberal, non-participatory, and characterized by enormous inequalities. This important new study examines the extent to which it is possible to strive towards a new form of

[Democracy and development - University of Michigan](#)
Democracy and development Is democracy inherently a good thing? And do democratic institutions facilitate economic development? It appears reasonable to answer the first question affirmatively: democracy is a good thing because it facilitates free human choice and it furthers the good of political participation. But the answer to the latter question is an empirical one, and there is debate

With a view to fostering reform, the research aims to learn about the role political parties play during democratic transition or in post-conflict situations. The project explores, for example, issues such as party formation, internal constitutions, and legal frameworks. As it proceeds, the initiative helps build a body of experts in political party development.
