[Desert Regions - What is a Desert? | Young People's Trust ...](#)

The first, and our most common vision of what a desert should look like, is the sand desert or erg. About one third of all desert landscapes are like this. The sand is blown into hills or dunes by the wind. These shift over time so that if the movements of the dunes of a sand desert over several years were filmed and then speeded up so that the film lasted only a few minutes, the movements of

[Deserts of California - Wikipedia](#)

The Deserts of California have unique ecosystems and habitats, a sociocultural and historical "Old West" collection of legends, districts, and communities, and they also form a popular tourism region of dramatic natural features and recreational development.
