Bazungu Bucks: Economics and Ecology

Economics is very materially focused and in how stuff is managed and allocated. Both fields are influenced by scientific ideas of the time. But in a sense the laws that economics are concerned with are political and therefore different from the notion of laws of science.

Lesson 1: Economics, Ecology, & Ethics

Economics, ecology and ethics are inextricably linked.

Many of the worst global environmental problems we are experiencing right now are the result of ignoring this fundamental relationship. As we use up natural resources, the need to understand and take care of the Earth must be addressed.

Economics vs. Ecology | Dissident Voice

Ecology: from Greek oikos house + -logy. Economics: from Greek oikos house in the form oikonomika referring to household management. It is a monumental irony that these terms, with their entourage of cognitive and practical meanings in mortal combat for our present and future world, have grown from the same root.

Ecological economics - Wikipedia

Ecological economics (also called eco-economics, ecolonomy or bioeconomics of Georgescu-Roegen) is both a transdisciplinary and an interdisciplinary field of academic research addressing the interdependence and coevolution of human economies and natural ecosystems, both intertemporally and spatially. By treating the economy as a subsystem of
