Telematics infrastructure for networking healthcare
The Telekom's subsidiary company T-Systems has won the tender issued by gematik, the electronic health insurance card company set up by the German healthcare industry, to trial its secure telematics infrastructure. Jointly with around 500 physicians, dentists and psychotherapists, and five hospitals in Bavaria and Saxony we want to try out the secure digital information interchange technology in the months ahead as a kind of dress rehearsal for its launch throughout Germany. The Health Telematics and its Societal Implications - eolss.net

copy printed information, or any other substance encountered in health care. Health telematics deals only with the transmission of health-related information across substantial distance. Telematics, its clinical applications, and education and training in healthcare telematics, are closely inter-linked. The provision of quality training and education, both as part of the clinical curriculum and also externally to practising clinicians, will play an important role in the success of telemedicine. Conversely, the development of new telemedicine applications, particularly those
