[Interest rates for the second calendar quarter - Canada.ca](#)

The interest rate used to calculate taxable benefits for employees and shareholders from interest-free and low-interest loans will be 2%. The interest rate for corporate taxpayers pertinent loans or indebtedness will be 5.18%. [Calculating the Rate \(i\) in an Ordinary Annuity ...](#)

The interest rate for the ordinary annuity described above can be computed with the following equation: Let's review this calculation. We insert into the equation the components that we know: the present value, payment amount, and the number of periods. In line four, we calculate our factor to be 3.605. We now know both the PVOA factor (3.605) and the number of years ($n = 5$). We go to the PVOA.
