Lacan and the Concept of the 'Real': T. Eyers ...

Although references to Lacan's notion of the Real are widespread in today's theoretical humanities, a rigorous, systematic presentation of this key concept has been missing. Eyers's superb study remedies this lack. With precision and insight, Eyers brings to light the interconnected facets of the Lacanian Real. Moreover, he creatively advances a number of contemporary discussions and debates.

The Real - Wikipedia

Lacan. For Jacques Lacan, the order of the real is not only opposed to the imaginary but is also located beyond the symbolic. Unlike the symbolic, which is constituted in terms of oppositions such as "presence" and "absence", there is no absence in the real.

Definition: The Real

THE REAL (Lacan): The state of nature from which we have been forever severed by our entrance into language. Only as neo-natal children were we close to this state of nature, a state in which there is nothing but need.

Thus, in developing the concept of foreclosure, Lacan was able to declare, "What does not come to light in the symbolic appears in the real" (1966, p. 388). Lacan reconceived Freud's hypothesis of an original affirmation as a symbolic operation in which the subject emerges from

an already present real and recognizes the signifying stroke that engages the subject in a world symbolically ordered
