[Laws of thought | logic | Britannica.com](#)

Laws of thought, traditionally, the three fundamental laws of logic: (1) the law of contradiction, (2) the law of excluded middle (or third), and (3) the principle of identity.

[What Are the Three Laws of Logic? | Apologetics](#)

The law of identity says that if a statement such as It is raining is true, then the statement is true. More generally, it says that the statement P is the same thing as itself and its different from everything else. Applied to all reality, the law of identity says that everything is itself and not something else.

[Laws of logic - Wikipedia](#)
