## Number Talks | Math for Love

Number talks don't replace other instruction, but they are a powerful complement to it. They get all students involved, help them strengthen fluency, intuition, and mental math strategies, improve students ability to explain and critique solutions, and allow teachers a valuable window into their students thinking.

## Math Talks for Undergraduates | SpringerLink

The talks could be given by faculty, but even better, they may be given by students in seminars run by the students themselves. Undergraduates, and even some high school students, will enjoy the talks which cover prime numbers, the abc conjecture, approximation theorems of analysis, Bruhat-Tits spaces, harmonic and symmetric polynomials, and more in a lively and informal style.

Math Talk 101 | Scholastic

The video below illustrates specifically how the Edcreation app is used in my room for Math Talk. In the first segment I am leading a small group during math workshop while the second part shows a small group independently using Math Talk on a homework problem.
