As we move into the 1980s, there is an increasing awareness that our civilization is going through a profound cultural transformation. At the heart of this transformation lies what is often called a "paradigm shift"-a dramatic change in the thoughts, perceptions, and values which form a particular vision of reality.

In reading *The Metaphors of Consciousness*, it was very gratifying for me to see that the fundamental relationship between the views of modern science and of mystical traditions-an idea which seemed to be very farfetched when I began to explore it a decade ago-is acknowledged, explicitly or implicitly, throughout the book. I think that this, too, is a significant aspect of the new paradigm. In *Metaphors for consciousness | Thoughts on thought* The Executive Metaphor consciousness produces the self that is controlling. 6.
