Environmental Protection - Transport Canada

Overview. The Environmental Protection division is responsible for the development and management of regulations, guidelines, various official Transport Canada Publications (TPs), programs and initiatives that focus on the prevention of pollution in maritime operations.

Marine Environment - IMO

The work of the Marine Environment Division is, in the main, directed by the Marine Environment Protection Committee, the MEPC in short, which is IMO's senior technical body on marine pollution related matters. It is aided in its work by a number of IMO's Sub-Committees, in particular the Sub-Committee on Pollution Prevention and Response (PPR).

Prevention of Pollution of the Marine Environment from ...

Although IMO legal instruments are mainly targeted at the prevention of pollution of the marine environment from vessels, there is a trend towards a liberal interpretation of this, and the organization has expanded its work to areas like shipbreaking, which is essentially a land-based industry.

Marine Pollution: Meaning, Causes, Effects, Control Measures

Marine pollution refers to the contamination or presence of pollutants in oceans and seas. The word marine comes from the Latin word for sea and it is related to similar words, such as mariner. Ocean pollution is become ever more of a problem in the present day.

Protecting the Marine Environment | International ...

preventing the degradation of the marine environment from land-based activities by facilitating the realization of the duty of States to preserve and protect the marine environment. [The GPA] is designed to assist States in taking actions individually or jointly within their respective policies priorities and resources, which will lead to the prevention, reduction, control and /or elimination

Air Pollution - Transport Canada

Pollution of the marine environment from ships may originate from a variety of sources, including accidental and operational pollution. In Canada, regulatory action has focused on a number of key areas of marine pollution, such as Air Pollution from Ships.
