[The Cotton Industry and the Industrial Revolution ...](#)  
The United Kingdom experienced a huge growth in the cotton industry during the Industrial Revolution. The factories that were required to produce cotton became a legacy of the time Sir Richard Arkwright at Cromford built the world's first true factory to produce cotton.

[The Cotton Industry and the Industrial Revolution](#)  
Britain's cotton industry grew at pace throughout the Industrial Revolution. Cotton was introduced to the country in the 16th century and by the 1700s it had changed the way people dressed. To keep up with increasing demand, cotton mills sprung up across Britain, especially in the north of England.

[Did Cotton Drive the Industrial Revolution? -](#)  
ThoughtCo

The British textile industry involved several fabrics, and before the industrial revolution, the dominant one was wool. However, cotton was a more versatile fabric, and during the Industrial Revolution cotton rose dramatically in importance, leading some historians to argue that the developments spurred by this burgeoning industry technology, trade, transport stimulated the whole revolution.
