Traditional ecological knowledge - Wikipedia

Traditional ecological knowledge describes indigenous and other forms of traditional knowledge regarding sustainability of local resources. As a field of study in anthropology, TEK refers to "a cumulative body of knowledge, belief, and practice, evolving by accumulation of TEK and handed down through generations through traditional songs, stories and beliefs. It is concerned with the relationship of living beings with their traditional groups and with their environment." Such knowledge is common

Traditional Ecological Knowledge - University of Manitoba

Traditional Ecological Knowledge and Science Even though the importance of traditional ecological knowledge is recognized in the international arena and the number of publications has grown rapidly since the 1980s, the relationship between Western science and traditional knowledge has remained controversial.
