Vertebrates and Invertebrates of European Cities: Selected
Non-Avian Fauna is the first known account of the
vertebrate and invertebrate fauna of several cities in
Europe and throughout the rest of the world. It excludes
birds, which are described in a companion volume. The
book contains eleven chapters about nine cities distributed
throughout Europe. The chapters start with the history of
the cities, which is followed by a description of the abiotic
features such as geology, climate, air
